PRESS RELEASE

July 15, 2022

Chip seal process to begin in some McPherson areas

McPHERSON — Several roadways within the City of McPherson are scheduled for chip sealing. Residents in these areas should be receiving notifications from contractor Circle C Paving at least a day prior to the process. The contractor is asking residents in those neighborhoods remove their vehicles by 7:30 a.m. the morning the street is scheduled for the process, and also remove any debris from the street and refrain from watering.

Chip seal is completed by distributing a thin layer of asphalt emulsion, then embedding finely graded aggregate. A fog seal then will be applied at a later date.

Those potentially affected will be notified via flyer with a start and end date. The contractor is scheduled to begin this process Monday, July 17.

The areas highlighted in green on the attached map are on the schedule this season. You can also view the attached information from Circle C Paving about the process.

Questions of the City of McPherson can be directed to the Public Works Department at 620-245-2545 during normal operating hours 8 a.m. to 5 p.m. Monday through Friday.

Mayor

Thomas A. Brown

Commissioner of Public Facilities

Gary L. Mehl

Commissioner of Streets & Utilities
